MICHIGAN.

THE THROWING OUT OF THE WAYNE COUNTY VOTE.

The Detroit Post of Saturday has the following concerning the throwing out of the vote of Wayne County by the County Canvassers, on the charge of illegal voting. The Board of Canvassers have consummated the outrage by declaring the defeated Democratic candidates elected to office and ordering certificates of election to be issued to them.

The whole pretense upon which this outrage has been based is a fraud. The pretense set up by the Free Press has been that the ballots had been cast in the Fifth and Sixth Wards that there were names on the poll lists is a falsehood. The truth is that no more than 100 names were on the lists, while there were 1,000 for certain State offices and 1,000 on this particular number of ballots, than there are names on the lists. To illustrate suppose there are 100 names on the lists. Suppose there are found just 100 ballots in the box. It would be evident that no man could be elected to office if there were 100 names in the box, but 100 ballots. There are 300 votes for Governor. It is evident that there must be some ballot box upon which there are more than one vote for Governor, or else that there is a mistake in the tally. This mistake is certainly made, and the result is that the State will be more strongly represented than ever before.

John L. Pitts is the sole editor of the *Ulysses Herald*, and he represents the 1st Dist. of Onondaga. He is equally at home as a writer and talker, and though an Onondaga politician, his integrity has never been, and, I venture to say, never will, be called in question.

Benjamin F. Bruce, a member of the Constitutional Convention of 1846, and ex-County Commissioner, is returned from the County of Madison. He makes an excellent speech, and has had experience qualifying him for the efficient discharge of the important duties which have been committed to him.

Ellis D. Bissell, sole editor of the *Ulysses Herald*.

This would prove that there must be some ballot box upon which there are more than one vote for Governor, or else that there is a mistake in the tally. This mistake is certainly made, and the result is that the State will be more strongly represented than ever before.

John L. Pitts is returned for the third or fourth time from Little Orleans—a man universally esteemed at home, a lawyer of extensive practice, a good debater, and a legislator of tried integrity.

Bennett C. Littlejohn, returned again from Oneida, is a man of large legislative experience, and will, no doubt, effectively represent the interests of his constituents. His eloquence is well known, and he is a member of the Legislature.

John V. Bissell, sole editor of the *Ulysses Herald*. His voice has been heard in the last session of the Legislature.

He is a good talker, and possesses good abilities and is thoroughly honest.

Henry A. Phillips of Lewis County, formerly editor of the *Ulysses Herald*, is a capable man and a good speaker.

The returns for the 11th Assembly District, and one for the 12th, are still incomplete, lacking the 11th District of the 11th Ward of Buffalo.
